

FORMULA SHORTAGES AND DELAYS UPDATE

Manufacturers of formula and enteral nutrition supplies are experiencing delays, backorders and shortages due to ongoing supply chain issues.

The issues impacting manufacturers include:

- Labor shortages leading to lower production
- Transportation delays
- Production shifts being made to manage backorders
- Hospitals and retailers being given priority for products
- Packaging and raw material shortages

Manufacturing and supply chain issues are disrupting the service of providing nutritional formulas and enteral nutrition supplies within the health care industry.

Additional Manufacturer Information Regarding Shortages

CHC Solutions, Inc. has received the following communications from manufacturers regarding formula shortages.

- [Abbott Inventory Update: Nutrition Products – Adult Formulas](#)
- [Abbott Inventory Update: Nutrition Products – Pediatric Formulas](#)

Note: Not all dietitians and health care providers agree with the suggested substitutions from manufacturers. Always speak with your doctor or health care provider before making any changes to your nutritional plan.

Please contact Abbott's customer service line at **1.800.551.5838** for more information regarding their nutrition products.
